The Air Force Must Obey the Law

- Air Force data shows the planned F-35 basing makes 2/3 of the housing units in Winooski “unsuitable for residential use.”
- By **unanimous** vote, the Winooski City Council adopted a resolution in 2013 saying the Air Force, “...did not adequately address the questions and concerns...” of the council about the impact of the F35 basing.
- The Air Force failed to comply with the requirements of federal laws in making the basing decision.
- Vote YES on Article Five to request the City of Winooski join the lawsuit to demand full compliance from the Air Force. The Air Force must obey the law!

**The USAF says homes in the
F35 noise impact zone
will be considered
“unsuitable for residential use”**

The Northwestern Vermont Board of Realtors
now requires a **Noise Disclosure Statement**
on all home sales within the future
F35 noise impact zone.
